[•] The For The People Act Is The "Democrats' Far-Reaching Bill To Combat Voter Suppression," Which Would "Roll Back Dozens Of Laws Being Passed By Republican State

Legislatures." "Senator Joe Manchin III of West Virginia said on Sunday in no uncertain terms that he would not vote for the Democrats' far-reaching bill to combat voter suppression, nor would he ever end the legislative filibuster, a written promise that imperils much of President Biden's agenda. The bill, which all the other Senate Democrats had supported and the party had portrayed as an urgent effort to preserve American democracy, would roll back dozens of laws being passed by Republican state legislatures to limit early and mail-in voting and empower partisan poll watchers." [The New York Times, 06/06/21]

- 147 Republicans, Including 139 U.S. Representatives, Voted To Object To The Results Of The 2020 Presidential Election. "When a mob of President Trump's supporters stormed the Capitol building on Wednesday, they forced an emergency recess in the Congressional proceedings to officially certify the results of the 2020 presidential election. [...] Plans to challenge a number of states after Arizona were scrapped, as well but one other objection, to Pennsylvania's results, also advanced to a vote. Here are the eight senators and 139 representatives who voted to sustain one or both objections." [The New York Times, 01/07/21]
- June 30, 2021: Only Two House Republicans Voted To Create A Select Committee To Investigate
 The January 6 Insurrection. "Only two House Republicans -- Liz Cheney of Wyoming and Adam
 Kinzinger of Illinois -- voted Wednesday to create a select committee to investigate the deadly January
 6 attack on the US Capitol. Both GOP lawmakers, who are frequent critics of former President Donald
 Trump, were among the 35 House Republicans who voted to establish an independent commission,
 which was blocked by Senate Republicans." [CNN, 06/30/21]
